### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis, budgetary comparison information and pension disclosure schedules on pages 3 through 7 and 28 through 34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town’s financial statements as a whole. The supplementary information is presented for purposes of additional analysis and are not a required part of the financial statements. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Respectfully Submitted,

### James W. Wadman, C.P.A.

James W. Wadman, C.P.A.
September 24, 2019
INDEPENDENT AUDITOR'S REPORT

Members of the Board of Selectmen
Town of Orland
Orland, ME 04472

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Orland, Maine (the Town) as of and for the fiscal year ended June 30, 2019, including the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Orland, Maine, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

George Stevens Academy Annual Report to the Community

In 1852, Blue Hill shipowner George Stevens left a bequest in his will to establish George Stevens Academy. As an independent town school, GSA’s chief mission is to serve the students who live in surrounding “sending” towns, providing a comprehensive and challenging education both to those who will build futures here and those who will make lives elsewhere in the world. Our many academic and experiential programs foster a love of knowledge, inspire creativity, instill self-confidence, encourage good character, and prepare each graduate for a purposeful life in a changing world. In the past two years we have added classes in digital fabrication, advanced marine science research, and eleventh grade English with extra supports.

Karen Bruce, GSA Fund Director
Mark Masset, Director of Communications
Liffey Thorpe, Campaign Communications

We continue our program and facilities planning to correct long-standing issues and set GSA up for the next few decades with a first rate campus and programming, looking at all we do to be sure we are making the best use of the resources we have, and forming plans to get the resources we need. Our goal is to be an exemplary school in all ways, take advantage of our location, and of the community we are a part of. We welcome support from community members. If you are interested in getting involved with our school, please contact us at 374-2808, or see us on Facebook.

Finances

The state-set tuition rate for FY19 was $11,759.07, but our actual per-student-cost was close to $14,700 (comparable to the costs of similarly-sized public high schools). To close tuition gaps like this one, we have, for years, relied on three additional revenue sources: income from our endowment (following strict laws limiting the amount we can spend); philanthropic gifts to the school, including the annual GSA Fund which goes directly into the operating budget; and surplus revenue from our international boarding program. Revenue from that third source has diminished dramatically over the past two years, and is unlikely to rebound. For that reason, we have begun discussions with the “tuitioning” towns (including Blue Hill) about increasing tuition (Maine law allows this) to help us close the tuition gap.

For up-to-date information about GSA, our program, and what’s happening on campus, visit our website at www.georgestevensacademy.org. Thank you!

Timothy J. Seeley
Head of School

Dear Friends,

As 2019 ends and 2020 begins, I am pleased to report that Congress made progress on a number of issues important to Maine families despite the polarization in our country.

In a major win for surviving military and retiree spouses to whom we are deeply indebted, I was proud to co-lead the repeal of what is often referred to as the “Military Widow’s Tax,” an unfair offset of survivor benefits that has prevented as many as 67,000 surviving spouses—including more than 260 from Maine—from receiving the full benefits they deserve.

The high cost of health care and prescription drugs continues to be a top issue for families and seniors. To provide continued relief for more lower- and middle-income individuals, I led the charge to extend for another two years the medical expense tax deduction that I included in the 2017 tax law. Without this extension, nearly 20,000 Mainers and millions of Americans with high medical expenses, including many with preexisting conditions, would have faced an increased tax burden. In other good news, the CREATEs Act I cosponsored became law. It will prevent pharmaceutical companies from blocking access to a sufficient supply of brand-name drugs needed for the studies that allow less expensive alternatives to enter the marketplace.

Improving people’s health and wellbeing remains my priority. On a per capita basis, Maine has the highest incidence of Lyme disease in the country. In August, I held a Senate hearing at the University of Maine’s Tick Lab on this growing public health crisis. A comprehensive public health strategy to combat this epidemic is needed, and the new law I authored will do just that.

In addition, I helped champion another $2.6 billion increase for the National Institutes of Health, our nation’s premiere biomedical research institution, including significant boosts for Alzheimer’s disease and diabetes research. Last year, NIH funded more than $111 million for research at 14 Maine institutions.

The Orland Comprehensive Plan Committee (OCPC) remains committed presenting the residents of Orland with a final plan worthy of the time and effort expended on it. When complete the Comp Plan should serve as the “go to” tool which guides future town policy making for years to come.

As a reminder, Comprehensive Plans are not ordinances and do not carry the weight of law. However, a good comp plan will clearly reflect and respect the wishes of the residents concerning the future of their town; how and where it should or shouldn’t grow, what areas and resources to protect while affording opportunities for homes, business growth, and jobs to name a few.

Earlier on in this process we sent surveys to all residents and property owners to gather information and insight about your desires and ideas. Later a series of neighborhood meetings were held to add to the body public input. The OCPC is dedicated to blending your opinions into the plan.

We are just about to finish up on the inventory of Orland’s resources. These include housing, transportation, natural, water and marine resources; historical, forestry and agricultural resources, and finally public facilities and services and the town’s fiscal capacity. This inventory is evaluated against the trends in these areas over the past two decades. Pressures on resources from local development are considered along with regional and national impacts. The results are a pretty clear picture of where the town is heading in the next ten years or so.

The next task will be to suggest to you, the citizens of this town, ways in which the foreseeable pressures might be managed to bring about the future you envision when you’re talking with your families and friends about it.

Nothing in this world, or in Orland, is without consequence. What we envision, how we plan for it and how we stick to those plans is the surest way we have to bring those consequences into line with our desire to see Orland remain the wonderful, diverse yet traditionally rural town we know and love.

The OCPC wants to recognize the very enthusiastic and energetic work provided to the committee by Amber Poulin. She is one of the town Tax Assessors and has gone over and above that capacity in support of the Comprehensive Plan. Thank you Amber from all of us.

Respectfully submitted,

Orland Comprehensive Plan Committee
I feel it is necessary to acknowledge the great work that Gary Newbegin and Andy Stanley are doing keeping the place operating smoothly and diligently maintaining the yard. The bargain bin continues to offer residents gently used, and some new, items at a very low cost. A thank you to Dot Baker for her hard work behind the scenes keeping the bargain bin organized.

**Note:** If you are there to take care of your trash and want to explore the bargain bin please be courteous and pull to the side to allow others to efficiently drop their trash. Suggestions or concerns may be made anytime by email at the address below.

In closing, I would like to thank the Selectmen and the Town Office staff and the residents of Orland for the continued support in making the Orland Community Center a staple for other towns to see what such a loss in the closing of the Orland Consolidated School was and now what has become a positive asset for the whole community to enjoy.

I’d like to wish Connie Brown our Town Clerk the best with her retirement. Connie has been very supportive with all aspects of the Community Center, Transfer Station and other town properties but more importantly she has been a great friend and coworker.

Respectfully submitted,

*Mike Malenfant*

Properties Manager  
21 School House Rd. Suite 2  
Orland, Maine 04472  
propertymanager@orlandme.org

To help prepare the graduates of Maine Maritime Academy, I secured $300 million for a new training ship, which will ensure rigorous instruction for MMA students for decades to come.

Significant federal funding was approved for work at Bath Iron Works and Portsmouth Naval Shipyard. Funding appropriated by Congress will pay for three new destroyers, make a down payment on an additional ship, and finance infrastructure improvements at PNSY.

As Chairman of the Transportation and Housing Appropriations Subcommittee, I have led efforts to improve our nation’s crumbling infrastructure and ensure that Maine’s housing needs are addressed. For Maine’s roads, bridges, airports, and seaports, tens of millions in federal funding will help make urgently needed upgrades and improve safety. Funding will also support housing assistance to low-income families and seniors and aid communities in reducing homelessness among our youth. The Community Development Block Grant program will assist numerous towns and cities in our State.

The Aging Committee I chair has continued its focus on financial security for our seniors. A new law I authored will make it easier for small businesses to offer retirement plans to their employees. Our Aging Committee’s Fraud Hotline fielded more than 1,200 calls this year. Congress passed a new law to crack down on robocallers who are often the perpetrators of these scams. And a new law I authored will expand the IRS’ Identity Protection PIN program nationwide to prevent identity theft tax refund fraud.

At the end of 2019, I cast my 7,262nd consecutive vote. In the New Year, I will keep working to deliver bipartisan solutions to the challenges facing Maine and the nation. If ever I can be of assistance to you, please contact one of my state offices or visit my website at www.collins.senate.gov. May 2020 be a good year for you, your family, your community, and our state.

*Susan M. Collins*  
United States Senator
Dear Friends,

The beginning of a new year provides the opportunity to reflect on the progress of the past 12 months. If you’ve been watching cable TV, you might think that every waking moment of 2019 in Washington has been consumed by divisive, partisan issues – and while there’s no shortage of those debates, there have also been opportunities for bipartisan cooperation. You sent me to the Senate to make the most of those opportunities, so as we enter into the New Year, I wanted to take a moment to update you on my efforts to work with members of both parties to make life better for the people of Maine.

One of my most important priorities this past year has been emphasizing preventive healthcare. Maine’s distinction as the oldest state in the nation brings us wisdom, of course – but it also creates unique challenges, particularly relating to healthcare. The key to addressing these obstacles is being proactive, because the cheapest, safest medical procedure is the one that doesn’t need to happen. That’s why I’ve introduced legislation to incentivize healthier living, expand mental health screenings, and help more Americans access regular check-ups. We’re making progress, but we’ve got a long way to go – and I’d like your help, because I know that the best ideas are the ones that come from families and communities on the front lines of these challenges. To strengthen this effort, I convened a policy forum on prevention in Bangor in October, which has already given me exciting new ideas that I’ll carry with me into 2020. If you have additional thoughts on encouraging preventive healthcare, please share them with my office.

This year has also continued the growth of Maine’s forest products industry – a key focus of my work to revitalize Maine’s rural economy and communities. We’ve seen significant investment in mills across the state, creating good jobs to support rural Maine. I’m also pleased that the investments aren’t just in our mills – the industry is thriving because of its commitment to innovation. We’re fortunate to have the University of Maine’s top-notch researchers

Outside at the Community Center, through generous personal and bottle donations, we have been able to continue to improve the playground area and add benches and wood chips. We are still planning a new fenced-in basketball/pickle ball court next to the playground. The next project is to build a pavilion for small birthday parties, as well as providing a nice, shaded place for adults to watch children enjoying the playground. I would like to thank and acknowledge Karen Lanpher for her help in the office and throughout the Community Center. She has turned that position into so much more than a secretary. As a former Orland Consolidated employee I knew she would be a perfect fit. She has a connection to the building and the community and wears many hats at the office; extra cleaning and painting to name a few. She is a “whatever it takes, it needs to be done” employee. I appreciate all the work and extra duties she does to help make the Community Center be what it is today.

The dog park, behind the Community Center, continues to be a great asset to Community Center property. It is used and appreciated by residents and those from surrounding communities as well. The park is sectioned off into an enclosure for medium to large dogs and an enclosure for small dogs. For those who use the park, we ask that you not allow your dog to dig holes. This not only affects the beauty of the park but is a huge safety concern for dog owners and their pets.

There are three cemeteries (Evergreen, Old Burial Ground, and Maplewood) being cared for by the Town of Orland. The continued upgrades and care of the cemeteries has been more time consuming with the trimming of trees, fence repair, and all the upkeep, but it is all necessary to get each cemetery to a condition we can all be proud of.

The Transfer Station has had a few improvements this year. We’ve added a second compactor and a roll off dumpster. Suggestions from residents for changes in hours or days was discussed, and found the need to add another day. The Transfer Station hours now are: Wednesday and Saturday 8am-4pm and Sunday 9am-3pm.
Properties Manager Report

The Orland Community Center has undergone many changes again this year! We are still making interior improvements and have added more business rental spaces. We currently have 15 occupied business and office rental spaces that are leasing on a monthly basis. We are excited with the most recent openings of Sweet Moments Cafe, Cloud 9 Massage, Habitat for Humanity, Covenant Community Land Trust and Cindy Polley Photography. We have put new LED lighting throughout the fitness center, the gymnasium and many other parts of the building. Continued upgrades in the exterior lighting here at the community center and at the sand/salt shed have been done as well. Thanks to Efficiency Maine for helping with rebates that offset some of the cost of each fixture.

The fitness center continues to grow. Since opening in June of 2015, over 1125 memberships have been sold. We are still adding and upgrading equipment. We continue to offer the following classes: Cycle, Cardio/Strength, TRX, and Yoga.

The shared community kitchen is rented throughout the year to independent business owners who sell their product locally and nationwide. The kitchen has also proved useful to those planning weddings, caterers, and other events and available to rent on an as needed basis.

We are very happy to say heat pumps have been added to the gymnasium and the conference room. Having climate control year round will be such an asset, as these two spaces are being rented at record numbers. The gymnasium has been used for Orland Recreation programs for adults and children and it is the home court for the Blue Hill Bay School basketball program. The gymnasium has been rented throughout the year approximately 58 times for weddings, family reunions, banquets, birthday parties, corporate functions and fundraisers.

As in past years, the conference room has been a huge hit for the Community Center. It was rented approximately 59 times this past year. This room also hosts Planning Board, Comprehensive Planning and many other town meetings and events at no cost. Because of the increased need for party and meeting space, we have utilized a former classroom, which is now room 21. Room 21 was rented 43 times this year and is used for many town meetings as well.

exploring cutting-edge ways to use our forest resources, including capitalizing on the rise of 3D printing technology with the world’s largest 3D printer. Combining this work with ongoing federal support, our vast forests, and Maine’s dedicated workforce, I know that the future of this industry is bright, and I’ll continue working to support it on all fronts.

I’m proud of all we’ve accomplished together this year, but even as I reflect on all that we’ve achieved, it is challenging to not think of the work left undone. It sometimes can be discouraging to watch these important priorities hang in limbo, but fortunately for me, encouragement is never far. After all, I get to live in Maine – which means I get to count Maine people as my neighbors and friends. I’m always struck by the kindness that our citizens show not only to me, but also to each other. This focus on collaboration and compassion is an inspiration, and it powers my efforts bring a little bit of Maine common sense to Washington. Thank you for all you do to for our state – Mary and I are deeply grateful, and we hope that 2020 will be a good year for you, your family, your community, and the State of Maine.

Best Regards,

Best,

Angus S. King
United States Senator
Dear Friends,

I hope this letter finds you well. It is an immense honor to serve as your representative in Congress. I take very seriously the responsibility that has been placed on me, and I would like to take this opportunity to share with you some of what I’ve been working on in my first year in Congress.

At the beginning of this term, the House passed H.R. 1, a comprehensive package of reforms I cosponsored to get big money out of politics and fight corruption in Washington. And in December, I helped pass H.R. 3, the Lower Drug Costs Now Act, which would limit out-of-pocket prescription drug costs paid by seniors, fund the expansion of Medicare coverage to include dental, vision, and hearing, and lower prescription drug prices for thousands of Mainers. Additionally, as a member of the House Armed Services Committee, I worked to ensure our annual defense authorization bill supports America’s national security and Maine’s shipyard workers, National Guardsmen, manufacturers, and universities.

On top of working on this legislation, I have also been advocating for our district directly to administrative agencies. I have been fighting for Maine lobstermen to urge the president to intervene in proposed regulations by the National Oceanic and Atmospheric Administration (NOAA) that would hurt our lobster industry. I pressed government agencies to ground their regulations in sound science and data when crafting new regulations on Maine’s lobstermen. I also persuaded the Army Corps of Engineers to hold a public hearing in Maine about the proposed Central Maine Power NECEC transmission line, which gave hundreds of people the opportunity to voice their opinions about the project.

Some of the most important work of members of Congress is rooted in on-the-ground constituent services. We have three offices in the district -- in Caribou, Bangor, and Lewiston -- and my staff work tirelessly to help Mainers solve problems they may face with federal government agencies. I urge you to stop by to talk to us in person and let us know how we can better serve you and your communities.

My favorite part of the job is coming home to the district and hearing about what matters to you. This year, I brought a hearing of the House Small Business Subcommittee on Contracting and Infrastructure to Maine to find ways to expand access to rural broadband. I’ve also held open town halls and coffee hours throughout the district to hear directly from Mainers veterans, as well as roundtables to find more ways to help small businesses in Maine grow and create jobs.

As always, please continue to reach out to me and my staff if you’d like to voice an opinion, let us know about a local event, or seek any assistance with federal agencies.

Respectfully,

Jared Golden

Respectfully Submitted,
Robert Conary, Fire Chief
The department voted to purchase the new equipment from our association funds received through fundraising and donations. This was a savings of $20,800 to our taxpayers, however it greatly depleted our non-appropriated funds.

All of the donated smoke and carbon monoxide alarms received last year were given out to residents at the fire station, town office and transfer station. We received an additional pallet of smoke alarms that are available to Orland residents who do not have working smoke alarms in their homes. Contact the fire station or town office and we will make arrangements to get some to you.

Our call volume numbers look a little different this year. Normally our call numbers are recorded and reported to the State Fire Marshal’s Office at the end of the calendar year. Those numbers are then compiled and submitted for inclusion in national statistics. This report’s numbers span portions of 2018-2019. For the 2018-2019 fiscal year, we responded to 68 incidents. Some of these calls are reflected in last year’s report and do not accurately reflect annual numbers as reported in past years.

During the year we welcomed a number of new and returning members to our roster. We are fortunate to have these dedicated personnel who continue to volunteer for no compensation. Many of our county’s fire departments currently provide hourly wages or stipends to their firefighters for calls and training.

Our members strongly urge everyone to ensure you have working smoke and carbon monoxide detectors in your homes, and make sure to test them regularly. We recommend replacing the batteries if possible twice a year or whenever you change your clocks for daylight savings time. If you need or know someone who may need help checking, replacing batteries, or installing detectors please let us know and we will make every attempt to see that you get help.

More than two decades since the implementation of Enhanced 9-1-1 addressing in Maine, we still have difficulty locating addresses when responding to emergencies due to unmarked or improperly marked mailboxes or houses. Please make sure your mailbox is marked with highly visible numbers that stand out, and can be seen from both directions of travel on your road, day or night by responders. The best option are the inexpensive, highly visible blue house number signs available for order through the Town Office. They are reflective and very helpful to us and our mutual aid partners in locating you.

Dear Friends and Neighbors:

Let me begin by thanking you for allowing me the privilege of serving you in the Maine Senate. I am honored that you have put your trust in me and can assure you I will continue to work tirelessly on your behalf.

Maine is in the midst of one of the greatest periods of prosperity in its history and has led the nation in a number of economic categories over the last several years. Unemployment is at record low levels, wages are up, and state government has had seven straight years of surpluses. The number of children living in poverty is in a steep decline, and Maine now leads the nation in equality for women in the workplace and politics.

Though we have accomplished a great deal in the past year, there is still much more to be done. Maintaining the prosperity that you have built over the last several years tops the list. We can do this by holding the line on government spending, doing our best to stay out of the way of local businesses so that they can thrive as a result of their own hard work, and making sure that government is the most fiscally responsible steward of your tax dollars. These will be a few of my priorities this coming year.

I am pleased to serve on the Criminal Justice and Public Safety Committee for the 129th Legislature. My prior experience has prepared me well for topics that come before the committee, including criminal law and criminal procedure, the Department of Public Safety, law enforcement, victims’ rights, fire safety and arson, and firearms. I thoroughly enjoy listening to all viewpoints and closely examining critical legislation as I believe we have a responsibility to safeguard the best interests of all Maine citizens.

Again, thank you for electing me to serve you in the State Senate. The 129th Legislature certainly has a great deal more work to do; but I believe that if we come together, there is nothing we can’t accomplish. Please feel free to contact me at 287-1505 or Kimberley.Rosen@legislature.maine.gov if you have comments, questions or if you would like assistance in navigating our state’s bureaucracy.

Senator Kimberley C. Rosen

Dear Friends and Neighbors,

The 129th Legislature completed its first regular session last June. Governor Mills and solid democrat majorities in the House and Senate, produced a two-year state budget that is 800 million more than former Governor Paul R. LePage’s last budget. It is 11% higher and spends 99.995% of all available monies. In order to avoid raising taxes this year, they relied on one-time monies that are not available in future years. This will make the next budget (2021) difficult to balance without tough choices.

I have several concerns about this budget, its long-term impact on family budgets and on local property taxes. One of my concerns is that by mandating $40,000 minimum teacher salaries (a worthy goal), without providing enough money to help local school districts to pay for it, homeowners will ultimately see higher property taxes. This increase is being phased in over 3 years.

We all agree that local property taxes are already too high. Although I voted against the budget, I appreciate that my fellow Republicans on the Appropriations Committee were able to get some property tax relief in the budget. The budget allocates an additional $75 million in property tax relief, some of which will go directly to homeowners by increasing the Homestead Exemption to $25,000. This will increase the state revenue sharing at a faster rate to get to the 5% rate promised years ago.

Republicans insisted on this type of tax relief because it goes directly to homeowners in the form of lower property tax bills. The budget also provides relief to nearly 13,000 low-income taxpayers, expanding eligibility for the Property Tax Fairness Credit.

I am committed to trying to prevent your taxes from going up. This is especially true now that the government is taking in record amounts of money, because of the strong economy that is a result of earlier federal and republican fiscal policies.

I welcome your thoughts and suggestions on issues that matter to you. It is an honor and privilege to be your State Representative.

I am respectfully,

Sherm Hutchins, State Representative

Report of the Orland Fire Department

Greetings fellow residents of Orland,

This year has seen some changes and challenges for our department. We began our new partnership with the Hancock County Regional Communications Center for dispatching services. After a few minor growing pains adapting to the change, we are now very pleased with the level of service received.

We experienced our first fire related fatality in several decades at a structure fire in North Orland in February. A resident perished in the fire and numerous departments responded to assist us as well as investigators from the State Fire Marshal’s Office. We held a Critical Incident Stress Debrief where members of several departments and the HCRCC Dispatcher who took the 911 call attended. One positive outcome was the opportunity to strengthen our mutual aid relationships with neighboring towns. Our mutual aid relationships have improved dramatically from this unfortunate event, as well as working through our new dispatch service. These relationships ensure our community receives the help we may need while helping others in the same manner.

The fire station experienced some extensive flooding during the heavy rain storm of February. Water entered the back part of the station from between the walls and slab, and into the truck bay from under the doors and up from the floor drains. During the flooding we received an emergency dispatch that resulted in firefighters standing in several inches of water to unplug the trucks to respond. Certainly not a safe situation and thankfully these circuits are GFI protected. This resulted in the request for an engineering study for the station, that was approved by our voters during last year’s town meeting. We appreciate that support.

During the year we also learned that our self-contained breathing apparatus (air packs) were outdated by NFPA standards. While still serviceable, they did not conform to current standards and were not compatible with newer equipment such as current production face masks. We also had a large portion of our air bottles used with these SCBA rapidly reaching the end of their allowable service life. We worked with an equipment vendor to purchase new air bottles and received donated used but newer air packs that are within current standards. A major improvement for the safety of our firefighters, and the air bottles are compatible with those of many of our neighboring departments.

TOWN OF ORLAND
SOLID WASTE TRANSFER STATION
180 Gray Meadow Road – Orland
HOURS OF OPERATION:
Wednesday & Saturday 8:00 am to 4:00 pm
Sunday 9:00 am to 3:00 pm

With the exception of the burn pile, all items brought to the Orland Transfer Station are recycled!

Metal items (as small as cans or as large as appliances) are sold and then shredded and reused. Generates money for Town.

TVs, Computers, Monitors, and Batteries are recycled through Electronics End in Brewer.

Wood Waste is ground and used as bio fuel.

Shingles are ground and reused in asphalt.

Resale Shop in the Transfer Station Garage offers items for sale that otherwise would be disposed of in the compactor or dumpster. Generates money for Town.

Clothes are available free of charge in the garage; another form of recycling.

All other items from compactors and dumpsters are sent to Penobscot Energy Recovery Company (PERC) in Orrington, which is a waste-to-energy facility. PERC processes the waste and creates renewable resource based electricity for Maine residences and businesses. PERC has received awards from the U.S. Environmental Protection Agency, as well as the Maine Department of Environmental Protection for its minimal affect on the environment.

Compactors and dumpsters are transported to DM&J in Winterport where metal, wood, shingles, etc. are sorted for the above recycling process. Remaining waste is then transported to PERC.

The prior concept of recycling by separating glass, paper, plastics etc. is no longer in use as there is no market in the U.S. or abroad for these items. Should the market change, then the process at the Transfer Station will change also. We do continue to sort paper products using Compactor #2 (for efficiency purposes), so when/if a pulper business opens up, we’ll be ready!!
Report of the Board of Selectmen

To the Citizens of the Town of Orland;

The 2018-2019 year was a pretty good one. With the election, we welcomed Brenda Leavitt to our Board. We thank Les Stackpole for his years of service.

The transfer station is running very well and they are very busy. Thanks to our great crew.

The highway improvements continue to move forward as the budget allows. Thanks to Wardwell Construction and Trucking for their hard work.

The community center and fitness center continue to grow. Thanks to Mike and Karen for their efforts.

The regional dispatch is working well. We are in the process of working with an engineering firm to do a survey of the current fire station. The survey will advise the best way to repair or replace the station.

We are still working with the revaluation process of the properties in the Town of Orland. It is a slow process, but we are on schedule.

We thank everyone, the residents of the Town of Orland, the Town Officers, the Committee Members and all volunteers for their dedication and hard work for the Town.

Respectfully submitted,
Edward Rankin, Sr., Chairman
Ralph Gonzales
Brenda Leavitt

Report of the Animal Control Officer

This year was a busy year as I took over the position of Animal Control Officer in November. I handled 42 complaints this year. The complaints ranged from Barking Dogs to Animal Cruelty. The State does not have a law against barking dogs under animal welfare regulations; therefore, you need to have a town ordinance to enforce barking dogs. Orland does have a barking dog ordinance. Enforcement of this ordinance will have to be accompanied by a written complaint and the person making a complaint testifying in court.

Please get your pets vaccinated against rabies, and make sure to license your dogs with the Town.

Please contact me if you have any animal issues or questions. My phone number is 207-323-6033 or via e-mail, acomaine@yahoo.com

PLUMBING PERMIT: This permit must be obtained by anyone who is going to do any type of plumbing either on the interior or exterior of a new or existing building. The permit must be obtained from the Plumbing Inspector. A permit fee is charged and the amount depends on the number of fixtures, which will be installed. Once the permit has been obtained and the work completed, the Inspector must be notified so that he can inspect the work done. Plumbing permits are valid for twenty-four months after issuance. If a plumbing permit is being requested for the purposes of installing a subsurface disposal system, the applicant will be required to obtain the services of a certified soils scientist to design the system prior to seeking the permit. The Plumbing Inspector can be contacted for suggested names of certified soils scientists who serve the Orland area.

HIGHWAY ENTRANCE PERMIT: This permit must be obtained by anyone who is proposing to construct any driveway entrance or approach within the right of way of any town road. This is also true if the grade or location of any existing driveway entrance will be changed. Applications are obtained from the Road Commissioner. A similar permit has to be obtained from the Department of Transportation if the new entrance is proposed within a state owned right of way.

ELECTRICAL SERVICE FORM: Anyone who is planning to install a new electrical service will be required by the utility company to obtain a signed form from the Code Enforcement Officer indicating that the property on which the improvements are to be made is not in violation of subdivision requirements and a shoreland zoning permit has been obtained if required. There is no fee for this permit. Application forms may be obtained from the utility company.

WIRELESS TELECOMMUNICATIONS FACILITIES PERMIT: This permit is required for the location, construction and expansion of wireless telecommunication facilities. Permit approval must be obtained from the Planning Board.

NOTE: The above is solely informational and is not meant to represent any ordinance or state law in its entirety. Other state and federal regulation may apply to the same project. It is your obligation to obtain all other necessary permits before commencing work.

Report of the General Assistance Administrator

The General Assistance program is designed to assist residents within the community who find themselves unable to provide basic necessities for themselves or their families, such as rent, food, household supplies, electricity, and heat. The General Assistance program uses the General Assistance Ordinance, and follows income guidelines, rules, and maximum assistance standards, set by the State of Maine through the Department of Health & Human Services. Applicants may reapply every 30 days, and decisions are made within 24 hours of the interview.

The Selectmen adopted the Appendices (A-D) for Fiscal year 2018/2019 on the 20th day of September, 2018, to stay compliant with State mandates. For 2018/2019 the State reimbursed towns for General Assistance expenses at 70%.

For Fiscal year 2018/2019 the GA program received 7 applications, and processed 5.

- Beginning 2018/2019 carry over balance: $11,309.25
- Total General Assistance Expenses paid: $1,655.25
- Total State Reimbursements: $1,158.68
- Town General Assistance expense: $496.57
- End of 2018/2019 GA account balance: $10,812.68

A General Assistance Review was conducted by DHHS on April 30, 2019 and found the Town of Orland General Assistance program in compliance with the General Assistance statutes, and the Department of Health and Human Services General Assistance Policy.

In addition to helping applicants with the General Assistance application, and the interview process, we also provide education on other resources in the community that the applicant can utilize to help meet their current, and future, needs. Anyone with any questions about how the General Assistance program works, or what the guidelines of the program are, may come to the Orland Town Office during regular business hours. Sincerely,

Tracy Patterson
General Assistance Administrator
As in past years, I wish to thank the citizens of the Town of Orland for their support. As I begin my last months with the Town, I want to thank everyone for letting me be a part of their family for 29 years. I am amazed at how fast the years have gone by! Being the first contact most citizens have with the Town, the Clerk’s office strives to give the best service possible and my best wishes and thanks to Tracy Patterson as she moves into the Town Clerk position.

In the clerk’s office, we licensed 290 dogs in 2018-19. Please remember that a state-mandated $25.00 late fee applies to re-registrations of dogs after January 31st of any given year.

We are still working with the MOSES program for hunting/fishing licensing and recreational vehicle registrations. The licenses are completed and the State knows instantly that a customer has their license and/or registration. In 2018-19, we registered 94 snowmobiles, 150 ATVs, and 347 boats. We also processed 445 recreational licenses. In 2018-19, we processed over 3100 motor vehicle transactions; as well as completing 258 certified copies of vital records and 18 marriage licenses.

A new change is that we now have an email list serve that is used to keep residents informed about what is going on in the Town. If you are interested in being on the list, please contact the office.

On the tax collection side, we continue to have the first payment due by September 30th and the second payment due by March 31st. Taxpayers also have the option of paying the full amount by September 30th.

With times becoming more difficult, we understand that finding the money to pay property taxes is not always easy. Please be aware that taxes can be paid on a monthly basis instead of coming up with the lump sum in September and March. If you have fallen behind in your taxes, please consider making a payment arrangement with the Town. These arrangements call for a mutually agreed upon amount to be paid monthly. We currently have several owners who have taken advantage of this program. Call the office if you are interested.

Again, thanks to all for a wonderful working/life experience.

Respectfully submitted,
Connie L. Brown, CMMC

---

Application Procedures

In order to provide information to anyone who is planning a project (new or old) in Orland, outlined is a brief description of those permits, which may be required. Unless otherwise noted, applications are available at the Town Office. A $5.00 fee is charged for copies of any of the ordinances.

SITE PLAN REVIEW PERMIT: This permit is required for all development proposals for establishment, alterations, or substantial enlargements of commercial, retail, industrial, institutional buildings and multiple family dwellings consisting of three or more units. Permit approval must be obtained from the Planning Board. A fee is charged.

SUBDIVISION REVIEW PERMIT: Subdivision review is required whenever three or more units are developed or any one lot is divided three or more times in any five-year period. Approval for a subdivision must be obtained from the Planning Board. The application fee is dependent upon the number of units or lots.

SHORELAND ZONING PERMIT: This permit must be obtained by anyone who proposes to construct, modify, enlarge, or change the use of any building located within 250’ of the shoreline or any other area as designated on the official shoreland zoning map, which is located at the Town Office. This permit must also be obtained by anyone who proposes any changes to the land, such as clearing, erosion control, etc. within those designated areas. Permits are issued either by the Code Enforcement Officer or the Planning Board. The Code Enforcement Officer makes the determination as to who issues the permit. Whenever a shoreland zoning permit is requested for a new or expanded building, a copy of a plumbing permit must be attached to the application.

FLOOD HAZARD AREA PERMIT: This permit must be obtained by anyone who plans to construct, relocate, replace, enlarge, or modify any building which is located in the Special Flood Hazard area as designated by the National Flood Insurance Act of 1968, such map being located at the Town Office. The Code Enforcement Officer issues this permit.
Report of the Orland Planning Board

The year saw relatively little business as the Board issued only one Site Plan Review permit and one Subdivision permit. The Site Plan Review permit was for a commercial garage on US Rte. 1. (Although the permit was approved, construction has not begun as of this writing.) The Subdivision permit was for a minor subdivision near the intersection of the Back Ridge Rd. and Cedar Swamp Rd.

During the year the Board conducted a review of the Shoreland Zoning Ordinance and developed proposed revisions to the ordinance to comply with the current State mandated minimum requirements. A public hearing was held in April, and the revised ordinance was approved at the 2019 Town Meeting.

Report of the Assessors

The Board of Assessors Office has been quite busy this year! We are on our second year of the town-wide revaluation and we have a new face helping us with the fieldwork for the revaluation. Ernie Guimond is a Certified Maine Assessor and has worked on several towns as a Field Appraiser; he has been a great asset to us in continuing our revaluation work. As for the progress of the revaluation, we have completed most of the south-western part of town and we are working our way north-easterly; be on the lookout for notices as to when we will be in your area. After 3 years with the Board, Kimberly Archer was re-elected, however resigned in September. As we are in the middle of a revaluation, we have decided to leave the 3rd seat vacant at least for now. We would like to thank Kimberly Archer for her years of service! After 5 years on the Board, Amber Poulin, Chair of the Board, will be up for re-election for another 3 year term. Sara Bair will be up for re-election in 2021.

The Town’s taxable valuation for 2018 was up $2,207,968 from last year. New listings include 10 new homes, 2 camps, and many additions, garages, and outbuildings.

The Board of Assessors processed 137 real estate transfers from April 1, 2018 to April 1, 2019. As a result of the money our municipality receives from the State Legislature, through the State Municipal Revenue Sharing Program, Homestead Exemption Reimbursement, and State Aid to Education, the tax bills have already been reduced by 22%. The mill rate for the 2019/2020 tax year is $15.50 per thousand.

If a taxpayer believes that the valuation of their property is too high, an abatement application needs to filled out and filed with the Board of Assessors no later than 185 days after the date of commitment. Homestead Exemption Applications are available at the town office. If you did not qualify last year, you may re-apply. If you did qualify last year, you need not apply again. In order to qualify for this exemption, you must live and own a home in Orland for one year as of April 1st; there is no income requirement. We granted 604 Homestead exemptions for the year of 2018/2019.

Orland Historical Society 2018-19

The society experienced a successful year by holding monthly meetings, while opening the museum to the general public on Saturday afternoons during June, July and August. Monthly business meetings were held the 4th Thursday of the month from April through September at 7 PM.

We featured our annual open house coupled with an antiques appraisal day on August 17th. The appraisal day was very successful with nearly 100 vintage items brought in to be appraised by five appraisers who donated their time and expertise. This event served as a fund raiser to assist with museum expenses.

Our society also sponsored a Halloween Dance at the Orland Community Center in October. It was well attended and the music was provided by the local band “Right Out Straight”. We thank the band for donating their time and talent to make the event a success.

Orland Historical Society accepts loaned or donated artifacts to the museum for display. Our collection continues to expand from donated historical items.

The society welcomes groups to schedule tours of our museum. We also encourage folks to come by and visit our museum and we can open by special request by calling ahead at 598-5741.

Special thanks to our officers: Mary Hauger, Secretary, Jo Ann Carlson, Treasurer and Bill Chandler, Vice President for their work and support of the society.

We wish to thank the Town of Orland for its continuing support of OHS to help preserve our past for future generations to enjoy.

Respectfully submitted
Roger Wood
OHS President
A total of 2455 bushels of alewives was caught. The Town’s share of the proceeds was $14,730.00.
